CIRCULAR

of the HONGKONG AND CHINA GAS
works Ltd approaching completion, the
Company desires on this the first introduction
the Colony to draw the attention of
the public to the advantages to be derived
from the use of Gas as fuel for lighting, not
only for its brilliancy, cleanliness, and
economy and permanency.
The following are a few of the inducements
offered by the use of Gas, when compared with
other fuels as ascertained in every part of the
world have been established:
It is safer than other kinds of lighting, as there
is no risk of fire from Candles as there
is from Oil or Spirit.
It does not injure Carpets or Furniture by the
smoke of oil.

Waste by Carelessness or dishonesty.
is lighted, increased, diminished or extinguished in a moment's time.
The light from a Gas Burner consuming 1 lb. of Gas per hour is equal to 12 Candles.
will illuminate a room to the same

ly. Houses can be either partially or fully lighted at once, and can have extra added at any future time. The cost being in exact proportion to the number of burners required. The Engineer will shortly prepare for inspection the Co.'s Town Office, Queen's Road, n

ity of carefully selected manufacturers, of various designs, from these choices may be deemed most suitable for the proposed to be lighted up. The same will be given as to rendering existing buildings and other fittings available for the uses of the cost for complete or partial new building, however large or small, to be furnished by the company. The company guarantees that the work executed by its agents shall be in every respect and free from every danger. The factors in fixing the price of Gas, viz., the standard cubic feet, trust, to ensure it, to speedily into every household and take price will they believe ultimately use to the principal Cities of China.

accounts against the Company, must be
